Gleditsia triacanthos var. inermis
‘Shademaster’ / Shademaster Honeylocust

Full Sun
Bright green glossy leaves
that turn a showy, clear yellow in the fall. Loose, open
habit with spreading branches.
Useful to light shade cast, al-
lowing turf to grow beneath.
Grows up to 50’ tall.
Ilex meserveae ‘Dragon Lady’ / Dragon Lady Holly

Full Sun to Part Shade
Considered the perfect columnar holly, growing to 18’H. Very dense with smaller leaves than most hollies with very stiff, pointed spines; dark glossy green foliage with a very apparent reddish tint on the new flush. An ideal hedge specimen.
Juniperus chinensis ‘Spartan’ / Spartan
Chinese Juniper

Full Sun
Considered the most popular of all the upright Junipers. Dark green foliage throughout the year. Good for windbreaks and privacy screens. Will perform well in just about any location. Deer resistant. Plant 3’- 4’ apart to form a full hedge row. Up to 20’ tall.

Juniperus scopulorum ‘Moonglow’ / Moonglow Rocky Mountain Juniper

Full Sun
Narrow, pyramidal evergreen with dense silvery-blue foliage. Up to 20’ tall. Requires little pruning to maintain its form. Needs a well-drained soil. Perfect for accent, hedge or windbreak.

Juniperus rigida ‘Pendula’ / Weeping Temple Juniper

Full Sun to Part Shade
Narrow-leaved evergreen shrub that grows 18” annually. Graceful appearance due to its drooping branchlets. Bright green needles, slightly bronze in winter. Up to 20’ tall.
